

# Designed for Efficiency, Delivered in Quality

## **Professional Production Print Quality**

The imagePROGRAF PRO-540S and PRO-560S are the best solutions for large format printing productivity, delivering outstanding quality at high speeds and offering exceptional reliability.

# DESIGNED FOR EFFICIENCY, DELIVERED IN QUALITY

Colour consistency, fast print speeds, and low running costs are what the new PRO Series line of large format printers were engineered for.

Introducing the Canon imagePROGRAF PRO-540S and PRO-560S large format printers. With an 8-colour LUCIA PRO ink system built for advanced printing solutions, these printers are ideal for bringing production commercial photography advertisements, signage, POS, and soft proofing businesses to the next level.

Core Technologies

## PRODUCTION REDEFINED

## **MULTIFUNCTION ROLL SYSTEM**

- Second roll media printing
- Bi-directional take-up unit

Canon thought of every detail when it came to building the ultimate large format production printer - no touch media loading, torque control on the take-up unit, a sub-ink tank system and a compact size, reaching a whole new level of performance.

Compact Size: PRO-540S - 1593 mm | PRO-560S - 1999 mm

## **SUB-INK TANK SYSTEM**

• Enable ink tank replacement during printing

## KEEP YOUR COLOUR IN LINE

## **LUCIA PRO INK SYSTEM**

## • Wide Colour Gamut

The new LUCIA PRO ink system adopts newly formulated, microencapsulated 8 colour pigment inks. These inks help you achieve fantastic colour reproduction, image clarity, and fine lines, all ideal for creating vivid posters and advertising displays.

- Enhanced red colour performance
- Reduced graininess
- Enhanced dark area reproduction

Microencapsulated pigments

## • 8 Colour Ink System

To enhance print performance, the 8 colours use all 12 ink channels in the print head. The LUCIA PRO ink is arranged in a mirror layout on the print head, symmetrically arranging the colours: C, M, Y, MBK. This layout allows for the same ejection order of the four key colours during the bi-directional printing process, resulting in faster print speeds.

## Mirrored nozzle layout of dense inks

## • Newly Developed Print Head

At the heart of the imagePROGRAF PRO-540S and PRO-560S printers is a newly developed 1.28" wide, PF-10 print head with 18,432 nozzles. Using one print head as opposed to two like previous imagePROGRAF 8 colour models, the new PRO Series is able to achieve faster print speeds.

Ink ejection conditions are precisely checked with sensors, so if a clog is detected, another nozzle automatically provides backup. In addition to preventing wasted prints due to clogging, this also helps to reduce the frequency of nozzle cleaning.

## 1.28" WIDE PRINT HEAD

# FINE

with 18,432 NOZZLES

## • No Switching of Black Inks

The PRO Series is designed to work seamlessly when changing paper types. Matte Black and Photo Black inks have their own dedicated nozzles, so no switching is necessary. You can print on fine art paper then glossy paper with no worries, no changes, and no waste.

## L-COA PRO IMAGE PROCE

## • New High-Precision Control Engine

Big jobs need fast processing. The imagePROGRAF printers are powered by the new L-COA PRO high-speed image processing engine. With three new processing chips, this high-precision control engine performs the processing of massive image data, generates the printing data, and controls the optimal ink layout that produces high-resolution prints, delivering supreme print quality at high speed.

## HIGHLY PRECISE INK PLACEMENT WITH LITTLE INTER-COLOUR DISCREPANCY

## Uni-Body Design

The newly engineered unibody structure provides a strong platform for stable print head scanning, resulting in precise droplet placement. The perfect combination of speed and high-quality printing is achieved with this new design.

All PRO Series devices include a built-in multi-sensor to help ensure colour consistency, not only from one print to the next, but also from one PRO Series device to another. With the included Device Management Console software, calibrate and monitor up to 50 PRO Series devices with ease on both Canon and non-Canon media, ensuring highly consistent colour.

Producing the correct colour is paramount when printing high-quality, archival work. The built-in Colour Calibration function uses a multi-sensor to read colour density and automatically calibrate the printer, so that the last print looks as stunning as the first.

## PRINTER OVERVIEW

6

## PRINTER MANAGEMENT SOLUTIONS

Canon developed hardware and software innovations offer unique flexibility in any production environment.

## INPUT AND OUTPUT VERSATILITY

### WI-FI CONNECTIVITY

Stay connected. A first for the Canon imagePROGRAF large format printers, Wi-Fi connectivity is now standard with the imagePROGRAF PRO series.

### DIRECT USB DRIVE PRINTING

- Directly print PDF and JPEG files from USB drives
- Input USB drive into the USB port on the printer, preview image on operation panel and print
- Fast and easy printing without the use of a computer

## • EFFORTLESS MEDIA LOADING

- Include media adaptors with both 2" and 3" media core adjustments
- Automatic media feed into the printer, with no need to touch the paper, decreasing the risk of creasing and blemishes

## OPERATION PANEL

The 3.5" colour LCD touch-panel screen let users view printer information and perform commands easily.

## MULTI-FUNCTION ROLL SYSTEM USED IN TWO DIFFERENT WAYS

- Different media type and size loading on second roll
- Operator configured as a bi-directional take-up unit

## • MULTI-POSITIONAL BASKET

The PRO Series printers offer choices on how prints will be output based on the type and quantity being produced. Each comes standard with a multi-positional basket that can be configured as any of the following:

- Regular catch basket
- Flatbed stacker
- Slope

### **GREAT SOFTWARE SELECTION**

### **PRINT STUDIO PRO**

Creating Canon large format prints is now easier with the introduction of Print Studio Pro plug-in for imagePROGRAF PRO Series large format printers. This software offers features that streamline your printing workflow.

Key Features include:

- 16-bit printing workflow
- Ability to print multiple-up images
- Large preview screen
- Import multiple images and make batch edits that apply to all
- Create "Favourites" settings
- Print history
- Soft proofing
- Edit tone curves and import/export

### QUICK UTILITY TOOLBOX

Quick Utility Toolbox is home to all Canon imagePROGRAF PRO Series printer software and tools.

### Accounting Manager

In today's printing environment, it is more important than ever to understand how much each print job is costing your business. Compatible with both Mac and Microsoft platforms, Accounting Manager serves as a powerful feature used for accurately managing your print costs. With Accounting Manager, you can track how much ink and paper is being consumed on printing with up to 50 printers.

## Media Configuration Tool

Recognising the expanding array of media options for large format printers and to further improve the versatility of these new imagePROGRAF models, Canon has developed a Media Configuration Tool, which allows customers to not only utilise Canon-branded media, but providing them the ability to make adjustments to printer settings to enhance the precision and quality of output achieved with custom media.

## Additional Software Available

- Print Plug-In for Microsoft Office
- Poster Artist Lite
- Media Configuration Tool
- Direct Print & Share
- Poster Artist (Optional)

## • Device Management Console

The Device Management Console software, ideal for fleet management, lets you perform colour calibrations remotely. This software lets you monitor the printer status of up to 50 printers from any location in the world, be notified by email when an error occurred, or check the amount of ink left in the printers without ever having to leave the comfort of your desk.

Settings that can be configured using media parameter adjustment features include:

- Media weight and thickness
- Ink drying
- Automatic cutting settings
- Borderless printing Paper feed amount
- Print-head height
- Vacuum strength
- Maximum ink usage
