

Tablet POS System HM618

■ Reliable Industrial Design

Industrial design, perfect for harsh and rough industrial environments

■ Small Size

Compact footprint overcomes the severe space constraints of retail establishments

■ High Performance & Eco-Friendly

Embedded with powerful yet energy-efficient Intel Core CPU

■ Portability

Easy to carry around

HM618 Tablet POS System

HM618 Tablet POS System features the Intel CPU which delivers stable quality operation with 3 types of operational usage to meet the needs of most retail, hospitality & entertainment environments. The HM618 Tablet Touch-Screen POS System is a cost-effective solution which features design that allows easy portability and long hours usage.

Key Features

■ Intel® Atom® CPU

HM618 Touch-Screen POS System is designed to deliver quiet operations, thus reducing distractions, costs and failures. Equipped with High-performing Intel® Atom® Processor, it allows for faster operations, reliability and stable quality

■ Long Operation Hours

The HM618 Tablet POS System features a big battery capacity of 9000mAh for longer operational and portability hours without worrying about losing your power juice.

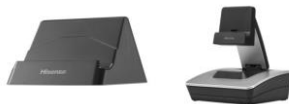

■ 10" TFT LCD Capacitive Touch

The HM618 Tablet POS System features a 10" Flat Capacitive Touch Screen for Operator Display which provides a smooth and seamless surface. The protective edges protect against accidentally drop.

■ Flexible Configuration

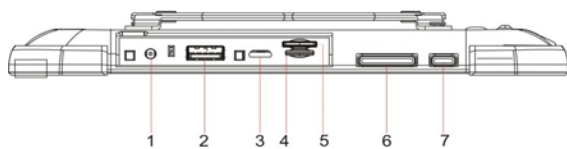

The HM618 Tablet POS System comes with various configuration adjustment and modular options like tablet operation, existing dock operation or smart dock operation; thus providing the users with flexibility to choose the options that suit the market trends.
